Education:

BS in Data Science <i>CGPA: 7.8</i>	2023-2027
Indian Institute of Technology	Madras(Online)
B.Tech in Computer Science and Engineering <i>CGPA: 8.5</i>	2023-2027
ABES Engineering College	Ghaziabad, U.P.
Senior Secondary (Class XII), CBSE <i>Percentage: 93.8%</i>	2022-2023
Krishna International School	Aligarh, U.P.

Experience:

- ❖ **Senior Cadet of National Cadet Corps (NCC)** *ABES Engineering College, Ghaziabad | Present*
- ❖ **Business Analyst (Project-Based) — Gandhi Traders Wholesale** [Github](#) *Jan 2024 – Mar 2024 | Aligarh, U.P.*
 - Digitized 20+ days of handwritten records into structured Excel sheets; analyzed sales/inventory data to identify ₹13.1L revenue, ₹1.16L profit, overstocking in 10+ low-demand SKUs, and ₹4.8L revenue concentration in top 2 customers.
 - Recommended inventory optimization & reorder thresholds, reducing excess stock by 18% and improving purchase efficiency by 12%; suggested customer diversification strategies.
 - Built Excel-based sales forecasting/seasonal demand models and delivered 15+ reports on profitability, stock, and customer insights for procurement and expansion decisions.

Projects:

- e-Raksha Setu (Smart Tourist Safety App)** [Github](#) *2025 | Android Studio, Expo, Blockchain*
 - Built a fully functional mobile app for tourist safety using AI, geo-fencing, ML risk prediction, and blockchain-based Digital Tourist IDs with real-time monitoring, SOS automation, and offline vector mesh maps for low-network zones.
 - Developed admin dashboards for police/tourism departments with heat maps, alert tracking, E-FIR automation, and secure log retrieval via DID, ensuring tamper-proof data and rapid emergency response.
- Data Analyst Agent — Your AI-Powered Data Companion** [Project Link](#) | [Github](#) *2025 | Python, FastAPI*
 - Developed an AI-driven data analysis agent that processes datasets through natural language queries.
 - Integrated visualization (Seaborn, Matplotlib), web scraping, and multi-format data support (CSV, Excel, JSON, Parquet, TXT).
 - Implemented an end-to-end ML pipeline with Generative AI for automation, and API-based workflows.
- Virtual Teaching Assistant** [Project Link](#) | [Github](#) *2025 | LLMs, Web API, Web Scraping, OpenAI*
 - Programmed and deployed a virtual Teaching Assistant API that answers student queries using scraped data from IITM's TDS forum and course notes.
 - Enabled multimodal query parsing (text + screenshots), LLM-based responses with reference links, and evaluation via promptfoo tests.
- Synapse AI — LLM Agent Platform** *2025 | JavaScript, OpenAI API, AI Pipe, Bootstrap*
 - Built a multi-tool reasoning LLM agent integrating Google Search, AI and sandboxed JavaScript execution.
 - Designed a responsive multi-theme UI (Light, Dark, Cyberpunk, Glass) with real-time streaming chat and OpenAI function calling.
- Kaggle Assignments** [Github](#) *2025 | Python, Scikit-learn, XGBoost, Pandas, Matplotlib*
 - Participated in multiple Kaggle competitions and placed in the top 25% in multiple Kaggle competitions involving regression, classification, and NLP.
 - Designed and optimized ML pipelines through feature engineering, model tuning, and visualization, driving measurable performance improvements across projects.

Skills:

- Languages:** Python, JavaScript, TypeScript, C++, SQL, Java
- Machine Learning & AI:** Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib, Seaborn, Prompt Engineering, LLM Agents, Generative AI, Model Evaluation
- AI & LLM Tools:** OpenAI API, Hugging Face, GeminiAI, LangChain, Ollama, Vision Models, Function Calling
- Data Engineering & Analytics:** ETL Pipelines, Data Cleaning, Power BI, Excel Automation, Statistical & Business Analysis
- Web Development:** React, Node.js, FastAPI, Tailwind CSS, HTML, CSS
- DevOps & Cloud:** Git, Docker, CI/CD, GitHub Actions, Vercel, Netlify, Render, Railway
- Tools & IDEs:** VS Code, Replit, Colab, Jupyter, GitHub Copilot, DevTools

Achievements and Certifications:

- Finalist, HackHeaven 2.0 – Top 12/200+ teams for building AI Toolkit during 24-hour hackathon.
- Earned NCC 'C' Certificate for leadership, discipline, and national-level training.
- IIT Madras — Foundational Level in Programming & Data Science (Sept 2024)
- C++ Programming (Beginner to Advance) — Deep Dive with C++11, Exception Handling & STL
- Problem Solving: 300+ problems solved across multiple coding platforms (LeetCode, GFG, Codechef, HackerRank)
- Finalist at Paranox 2.0 Hackathon, rising among 1500+ teams with a project built through intense 30-hour teamwork.
